

April is the Month of the Military Child.

All month, *Building Capacity in Military-Connected Schools* will be sharing facts about military children, recognizing notable military children and sharing quotes from military children on what it means to a military child. We will also feature resources and organizations working with military-connected children and families. If you'd like to be featured as a resource to military-connected children, families or educators, please send an email to twagiram@usc.edu.
